Maryland Cong. Dist. 8, 2008
Candidate Questionnaire on
US-UN Relationship
BWC/UNA-USA

Question 1: on U.S. Participation in the United Nations:

(A). Does the United States advance national interests and security by working through the United Nations?

Xxxx _____ YES _____ NO

COMMENT:

Yes, but Not Quite especially under President George Bush's administration. Working with UN and the international community can be important and cost-effective for furthering U.S. national security interests to build support for global action on enduring foreign policy interests, such as international stability, prosperity, and the promotion of fundamental freedoms. Unfortunately, the United States owed \$1.5 billion its UN dues, but provided \$700 billions Wall Street bail out. U.S. has acted on its own, e.g., war in Iraq, and is asking the UN to undertake complex missions in places like Iraq, Lebanon, and Darfur. Besides, Social issues are interrelated, horizontally and vertically, local-global. For detail on issues, see website URL: Vote-MD.org/Intro.aspx?Id=MDYoungLih. **OPPOSE STRONGLY** \$700 billion Wall Street Bailout. It was absurdly proposed by the White House President George Bush with false excuses to help the people, and then passed by the Congress in emergency manner by adding more billion with further false excuses to help the main street. Basically, it was processed in such a speedy and improper manner, as often done by conspiracies among White House, Congress, Wall Street corporations, legal occupations, officials and related "official misconduct- government gang-fraud- crime- injustice networks" operation, unjust influences, manipulation and practices. It is not based on the essence of "capitalism", fairness, good principle, concepts, merits, justification, priorities, social needs, cost-benefit and budget constraints, etc. There is really no discussion, debate, examination or investigation about the problems, the justification of the bailout, the magnitude of the bailout, and other consideration, e.g., other projects or social programs which have been ignored. Such appropriation are basically siphon public resources to benefit a few, and worse to facilitate their "fraud- crime- injustice" operation; which are continuing, on-going, penetrating to every segment of our lives (local- federal-global, including civic non-profit organizations), and expanding here to overseas; with threat, coercion, and endless unlawful, immoral and unethical acts; destroy individuals, families, communities, justice, peace, democracy and whole society; cause serious socio-political-election-media-budget problems, society in vicious cycles; civil/human rights backwards, people-slave. To achieve the agenda meaningfully for the best interest of the people, we must also do the following, among other tasks:

(1). Prosecute the "official misconduct- government gang- fraud- crime- injustice networks" operation with threat, coercion, unjust influence, manipulation, misleading, falsification, false excuses; benefit and facilitate to siphon/ divert resources to benefit a few; destruction/ damage/ victimize good/innocent citizens/ residents/ immigrants; cause serious socio- political-election-

media- budget problems; causing homelessness, poverty, failing education, corrupting every segment of our lives.
