

Duane V. Grassell
Candidate for Congress, Ohio - 17th district.

1. Does the United States (US) advance national interests and security by working through the United Nations (UN)?

No. The UN is a bloated and corrupt bureaucracy that desperately needs to clean its own house. Until, it cracks down on its own administrators who have profited greatly from UN corruption, prevent human rights abusers from being on a human rights council, brings to justice those UN workers who have raped women and children while on missions, continues to interfere in the activities of sovereign nations with a democratically elected leadership, and continues to put down the US, then the US should withdraw from the UN. The US should also remove all UN bodies operating in and on sovereign US territory. Also, until the UN recognizes that every conceived child should have the right to be born and the UN stops all programs in population control, I will never support their mission.

2. Do you support paying off the US debt to the UN? Will you to ensure that the US honors its treaty commitments to the UN by paying their UN dues on time, in full and without conditions?

No. The US should cut off all funding to the UN and withdraw from the treaty for the reasons mentioned above. The conditions the US has asked the UN to meet are reasonable and the UN has done nothing to correct their many flaws.

3. Do you support an increased role for the UN to help strengthen the US-led effort to stabilize Iraq? Do you support providing the necessary US resources for an enhanced UN balance?

No & No. The US should make every effort to keep the UN out of Iraq. We have freed more people unilaterally in one year than the UN ever has.

4. Do you support collective action through the UN to address international terrorism?

No. Especially since the UN coddles terrorists leaders.

5. Do you support the development of a new international agreement for addressing climate change under the auspices of the UN Framework Convention on Climate Change.

No. The fear of climate change, formerly known as global warming until the Earth began to cool down due to a change in solar activity, is merely a scam created and perpetrated by UN administrators planning to shut down US industry and damage the US economy.

6. Do you support Security Council reform?

Only the elimination of the security council and the UN altogether.

7. Do you support UN peacekeeping operations as 'force multipliers' that can complement US efforts to stabilize conflict zones around the world? Do you support full US funding for UN peacekeeping operations?

No & No. UN peacekeeping practices have proved ineffective and have not prevented massive loss of life, like in Rwanda and Darfur, and SE Asia in the 1970s. I also would vote to prohibit US troops from engagement with UN operations as well as being a world policeman for world conflicts.

8. Should the US support and join the International Criminal Court?

No. Any the US should protect all US citizens from ever being subject to such a court.

9. Do you support US efforts to help meet the Millennium Development Goals?

No. The best solution to global poverty is to get all nations to develop a Constitutional Republic like our own where the people elect the people who govern and the people are free to pursue economic independence without the interference of government.

Respectfully submitted,
